

# C++1 // Calculator

Given a mathematical expression consisting of two positive integers less than 100 and a single operation (+, -, or \*), solve it and print the answer out onto the screen. There will be no spaces in input.

## Input Specification:

The first line will contain the string S, and among the string will contain 2 integers M or N where ( $0 \leq N$ ,  $M \leq 100$ ).

## Output Specification:

Output the answer.

## Sample Input:

```
20*21
```

## Sample Output:

```
420
```

## Sample Input:

```
40-39
```

## Sample Output:

```
1
```

## Sample Input:

```
1+1
```

## Sample Output:

```
2
```
