JS2 // Pyramid Time

Bansari has a sudden interest in climbing pyramids. She climbed so many perfectly symmetrical pyramids that when Aaryan wanted to know how the pyramids looked like, all Bansari could remember was the time it took to climb and descend the pyramid, and the time it took for her to climb or descend each step on the pyramid. From these 2 pieces of information, show how the pyramids looked.

Input Specification:
The first line will contain T, the total time it takes for Bansari to ascend and descend the pyramid. The second line will contain t, the total time it takes for Bansari to ascend or descend each individual step.

Output Specification:
Output how the pyramid looks.

Sample Input 1:
```
